PROFESSIONAL SUMMARY

Results-driven ASP.NET Core 8 Full Stack Developer with 2.5+ years delivering mission-critical insurance, compliance, and CRM platforms for large enterprise clients. Engineered high-volume Web APIs, WCF/SOAP integrations, and Azure Functions processing 10,000+ annual claims and 50,000+ customer records. Reduced feature delivery by 20% and report generation by 30% through AI-augmented development (GitHub Copilot, Claude AI, Semantic Kernel). Expert in Clean Architecture, CQRS, BizTalk, React/Blazor, and Azure cloud services with proven end-to-end delivery ownership and 99.5% uptime.

PROFESSIONAL EXPERIENCE

Software Developer (Remote)

Jun 2025 - Present

Datamatics Global Services Limited,

Mumbai, Maharashtra

- Owned end-to-end ASP.NET Core 8 Web API and WebForms delivery on the Reliance Motor Claims platform, processing 10,000+ annual claims (Own Damage, Personal Accident, Theft) from FNOL through garage settlement and payout.
- Engineered WCF services on IIS (basicHttpBinding/wsHttpBinding) for SOAP-based integration with 3 insurer systems, 50+ surveyor portals, and 200+ garages; integrated BizTalk Server for message routing, transformation, and fault-tolerant error handling.
- Designed and deployed 4 scheduled Azure Functions automating daily claims report generation for 200+ garages, eliminating manual Excel workflows; leveraged GitHub Copilot and Claude AI for stored procedure scaffolding, accelerating delivery by 20%.
- Optimized high-volume SQL Server stored procedures and EF Core queries on the claims platform, delivering 30% faster report generation and 25% lower peak database load across all active transaction windows.

Software Developer

Jul 2024 - Mar 2025

Cylsys Software Solution Pvt. Ltd.,

Narsinghpur, M.P.

- Delivered 8 compliance forms (Anti-Fraud, Conflict of Interest, NDA, HR Onboarding) for UTI Mutual Fund using ASP.NET Core 5 MVC with Razor Pages, Dapper, ADO.NET, and PostgreSQL; implemented fiscal-year eligibility engine, RBAC, and audit-trail logging.
- Built and deployed 12+ RESTful APIs for the Nuvama financial transactions platform with a React approval dashboard, maker-checker-risk workflows, ZIP file handling, and SQL Server backend; maintained 99.5% uptime over 9 months across concurrent delivery teams.
- Implemented JWT auth middleware, Serilog structured logging, and health-check endpoints; wrote xUnit tests covering core approval workflow logic and coordinated cross-team delivery under tight project timelines.

Associate Software Developer (Contract)

Dec 2023 - May 2024

MKP IT Services Pvt. Ltd.,

Nagpur, Maharashtra

- Developed 5 CRM modules using .NET 6, EF Core, CQRS/MediatR, and a React + Bootstrap dashboard serving 50,000+ customer records with real-time SignalR notifications, dynamic filtering, and sales pipeline tracking across 3 departments.
- Designed 8 Inventory REST API endpoints with JWT role-based authorization and Swagger documentation; refactored 15+ raw SQL queries to EF Core LINQ with code-first migrations, cutting query time by 20% and API response time by 25%.
- Mentored a junior developer on ASP.NET Core, React, and Clean Architecture best practices; contributed to CI/CD pipeline setup using GitHub Actions and participated in Agile sprint planning and code reviews.

TECHNICAL SKILLS

Backend: C#, ASP.NET Core 8/6/5, Web API, MVC, WCF, SOAP, EF Core, Dapper, ADO.NET, REST APIs

Frontend: React, Blazor, Razor Pages, ASP.NET WebForms, SignalR, JavaScript (ES6+), Bootstrap, jQuery, HTML5, CSS3

Cloud & DevOps: Azure App Service, Functions, Service Bus, Blob Storage, API Management, Docker, GitHub Actions, Azure DevOps, CI/CD

Databases: SQL Server, PostgreSQL, Azure SQL, Stored Procedures, Query Optimization, EF Core Migrations, PL/pgSQL

Architecture & Integration: CQRS, MediatR, Clean Architecture, Microservices, BizTalk Server, Azure Service Bus, Redis, Kafka

AI Tools: GitHub Copilot, Claude AI, Semantic Kernel, OpenAI API, RAG Pipelines, Prompt Engineering, Cursor AI, n8n

Testing & Security: xUnit, JWT, OAuth 2.0, Swagger/OpenAPI, Postman, Serilog, Health Checks

CLIENT PROJECTS

- Reliance Motor Claims Platform (Datamatics):** ASP.NET Core 8 Web API and WebForms claims platform with WCF/SOAP on IIS and BizTalk routing; Azure Functions daily reporting, AI-assisted development via GitHub Copilot and Claude AI. [ASP.NET Core 8, WebForms, WCF, BizTalk, Azure Functions, SQL Server] [Live Demo](#)
- UTI Compliance System (Cylsys):** 8 compliance forms for UTI AMC with Razor Pages, ADO.NET, Dapper, PostgreSQL; fiscal-year eligibility logic, RBAC, audit logging, and admin reporting. [ASP.NET Core 5, Razor Pages, ADO.NET, Dapper, PostgreSQL] [Live Demo](#)
- Nuvama Financial Invocation System (Cylsys):** Financial transactions API with React approval dashboard, maker/checker/risk workflows, JWT auth, ZIP handling, and xUnit-tested Swagger docs. [ASP.NET Web API, React, SQL Server, JWT, xUnit, Swagger] [Live Demo](#)
- Perfect Pitch CRM (MKP):** Full-stack CRM with CQRS/MediatR backend, React + Bootstrap UI, SignalR real-time notifications, deployed on Azure App Service with GitHub Actions CI/CD. [.NET 6, React, MediatR, SignalR, EF Core, Azure App Service] [Live Demo](#)

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science & Engineering (AI/ML Specialization)

2019 - 2023

Lovely Professional University, Phagwara, Punjab

AZ-900: Azure Fundamentals - 2025 | Microsoft Generative AI Certification - 2025 | Advanced C# Development (Udemy)
